

Information Resources

The Centers for Disease Control and Prevention (<http://www.bt.cdc.gov/disasters>) has a comprehensive web site on preparing for natural disasters.

U.S. Department of Health and Human Services (<http://www.hhs.gov/emergency/index.shtml>) also provides information on disasters and emergencies.

World Health Organization (<http://www.who.int/csr/en/>) has a web site on communicable disease surveillance and response.

Medlineplus (<http://www.nlm.nih.gov/medlineplus/healthtopics.html>) has extensive information from the National Institutes of Health and other sources on about 500 diseases and conditions.

Statepublichealth.org (www.statepublichealth.org), a product of the Association of State and Territorial Health Officials (ASTHO) and ASTHO affiliates, gives basic state-based public health information, such as directories of current state health officials and health agencies and public hotlines

Time Zone Map

World Time Zone Map, (www.worldtimezone.com) is a web site for seeing current times around the world.

The U.S. Naval Observatory's World Time Zone Map (http://aa.usno.navy.mil/faq/docs/world_tzones.html) provides a time zone map to calculate times in various places, using mapped deviations from Greenwich Mean Time.
